

# FUN CASINOS

Cash in the (fun) money, pick up your chips and begin the play to winning your fortune, (or maybe Prosecco), and take to a game of Roulette, Blackjack or Poker.

We take the seriousness of a traditional casino and change it up to make it fun and exciting whilst teaching your guests to play the most popular games of roulette or blackjack!

With each of your guests being given their own amount of fun money at the start of the event, they exchange this for chips and pick their table. With no limit as to how many times they can return to each table and their aim is simple – become the winning player by the end of the event! We provide a bottle of Prosecco for the winner or you can alternatively choose a different prize of your own.

Each fun casino booking comes with a friendly and experienced croupier to run and teach each table, quality gaming tables and playing accessories, fun money (with optional branding to suit your event) and a minimum of 3 hours playing time. We recommend one table per 30-50 guests.

For further table and game information, please turn overleaf.

## CUSTOMER REVIEWS

"...just to add that the tables were a huge success, whenever I walked passed them they were always in use, with much laughter going on around them! I did originally think my son had lost the plot by wanting them at his wedding, but I pleased to say he was 100% correct!"

# FUN CASINOS

Cash in the (fun) money, pick up your chips and begin the play to winning your fortune, (or maybe Prosecco), and take to a game of Roulette, Blackjack or Poker.

## Roulette

The biggest must have table at any casino, a common first choice and everything that reminds you of Monte Carlo. It's a popular favourite for new players too, the game is fast paced, quick to learn to place bets upon and lots of fun.

The croupier asks guests to 'place your bets' and it's down to deciding between betting on one or more single numbers, red or black, odd or even or a combination of the 3! Once the ball is spun and lands on one of the 37 numbers on the wheel, the bets are paid and a new round begins.

## Blackjack

Also known in other variations such as '21' or 'Pontoon', Blackjack is one of the most popular casino games.

Blackjack is simple and quick to play, each player aims to score the total number of 21, trying to beat the dealers' hand. Becoming one of the many card games that are easy to master, the croupier will be delighted to teach you to how to improve as you play! Betting is simple too with no complicated maths skills required.
